Cell Platform Impact on Mobile Apps

1G	2G	3G	4G
1981	1992	2001	2010
2 Kbps	64 Kbps	2 Mbps	100 Mbps
Basic voice service using analog protocols	Designed primarily for voice using the digital standards (GSM/CDMA)	First mobile broadband utilizing IP protocols (WCDMA / CDMA2000)	True mobile broadband on a unified standard (LTE)
			

5G Will Be a Key Enabler for Growth

- Estimated 10 Gbps broadband speeds with peaks of 20 Gbps
- Automate many network behaviors
- Unite wireless, wireline and satellite services under common structure
- Offer platform-enabling services for vertical markets
- Accelerate service delivery at lower cost
- Use network slicing to deploy multiple virtual 5G networks on common infrastructure

IBM BellSouth “Simon”

Retrospectively the 1st smartphone w/ mobile apps

- faxes
- e-mails
- cellular calls
- address book
- calendar
- appointment scheduler
- calculator
- world time clock
- electronic sketch pad
- handwritten annotations
- input screen keyboard

Smart Dray allows Drivers to communicate with dispatch, manage loads, capture activity data, and automatically convey load status. Automated events utilize GPS to notify respective parties of activity status and additional features, such as electronic signature capture, provide a hassle free way to instantly obtain external documentation at critical times. Please Note that Continued use of GPS running in the background can dramatically decrease battery life.

Drayage Dispatch Apps - Dray Drive

The screenshot shows the Google Play Store listing for the Dray Drive app. At the top left is the app icon, a red square with a white truck silhouette. To the right of the icon, the app name "Dray Drive" is displayed, followed by the category "Dray Maps & Navigation" and a 5-star rating with 6 reviews. Below this, it says "Everyone" and "This app is compatible with all of your devices." There are buttons for "Add to Wishlist" and "Install".

Below the app information are three preview images showing the app's interface on a smartphone. The first image shows a "New Load" screen with a map and details for a load from 2020 Shattuck Avenue, CA. The second image shows a "Load Details" screen with a map and various fields like "Vehicle Identification Number" and "Name". The third image shows an "Add Documents" screen with a table and an "Add Photo" button.

Below the preview images, there is a disclaimer: "*** This app is for drivers and owner operators. Dispatchers can sign up for Dray Fleet by calling us at +1 (855) 534-DRAY or emailing support@drayapp.com ***". Below that, it says "Drivers must have their account approved by a Dray representative to use this app. Sign up at https://www.drayapp.com to get started." There is a "READ MORE" link.

At the bottom, there is a "REVIEWS" section showing a 4.3 star rating. A bar chart shows the distribution of ratings: 4 stars (4 reviews), 3 stars (2 reviews), and 2 stars (0 reviews). There are 6 total reviews.

Cargo Moves Booking Apps - **NEXT Trucking**

NEXT Trucking
NEXT Trucking Maps & Navigation ★★★★★ 64
Everyone
This app is compatible with all of your devices.

Add to Wishlist Install

The NEXT Trucking app instantly connects owner-operators, dispatchers, and other carriers with available loads from shippers. This online trucking marketplace gives truckers the opportunity to move more freight by finding full truckloads to fill dry vans, reefers, and flatbeds. With the NEXT Trucking app, carriers can find these jobs in seconds, altogether creating a better supply-chain process. Dispatchers enjoy the same benefits as well as a full fleet management software right on their phones, for free.

Moving stuff sucks! DUDE I Need A Truck!

Yet all of us has had to move something too big to fit into our car at some point throughout our busy lives.

We call this a "micro-move". Solution? We borrow a friend's truck, but that's a nuisance. Go rent one?

Wait Time Apps – Port Vancouver PortVan eHUB

The screenshot displays the PortVan eHub app interface. At the top, there is a red circular logo with white and yellow lines. To its right, the text reads "PortVan eHub", "Port of Vancouver Business", and a 5-star rating with "10" reviews. Below this, it says "Everyone" and "This app is compatible with all of your devices." There are buttons for "Add to Wishlist" and "Install".

The main content area shows three panels of data:

- Port of Vancouver:** A menu with sections for Container terminals (Centerm, Vanterm, Fraser Surrey Docks, Deltaport), Rail crossings (1), Cruise operations, Vessels in port (52), Notifications (1), and Maps.
- Vanterm:** A section for Terminal status with a progress bar, and Truck status showing Today's Avg. (1h8min) and Current Avg. (1h8min). It also includes Pregate (31min) and On-Terminal (37min) times, and Today's turn times.
- Active rail crossings:** A list of crossings with their status (OPEN or 13:10) and location (e.g., Columbia, Vierra, Vanterm East, Vanterm West, AGT, Rogers St).

At the bottom, there is a "REVIEWS" section showing a 4.4 star rating from 10 total reviews. The breakdown is: 5 stars (8), 4 stars (0), 3 stars (1), 2 stars (0), and 1 star (1).
