

AAPA Marine Terminal Management Training October 1-5, 2018 Eric Napralla – Port of Oakland

Port of Oakland by the Numbers

- 4 marine terminals in operation
- **3 terminal operators** SSA, Everport & TraPac
- 33 Cranes of which 23 are Port-owned
- 2.42 million TEU handled in 2017
- 20 ocean carriers with service to/from Oakland
- **1,600 vessel calls** in 2017
- 2nd busiest container terminal in the United States, in number of daily gate moves

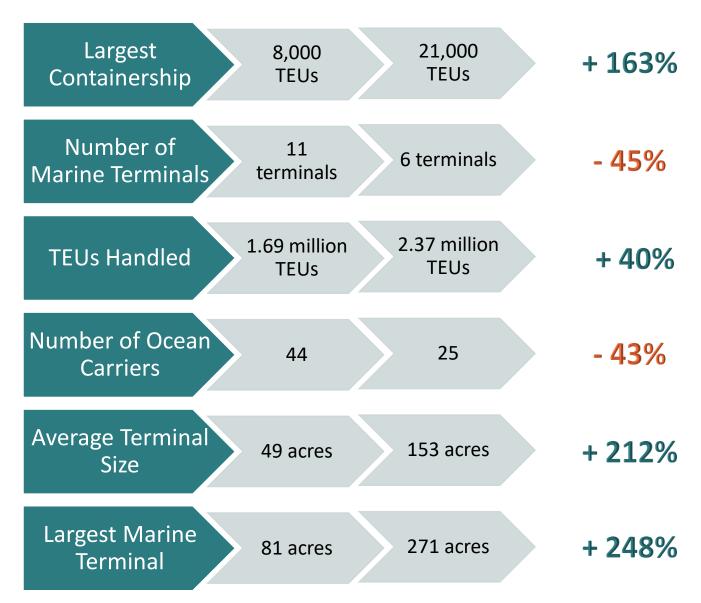

Mega-Ship Era

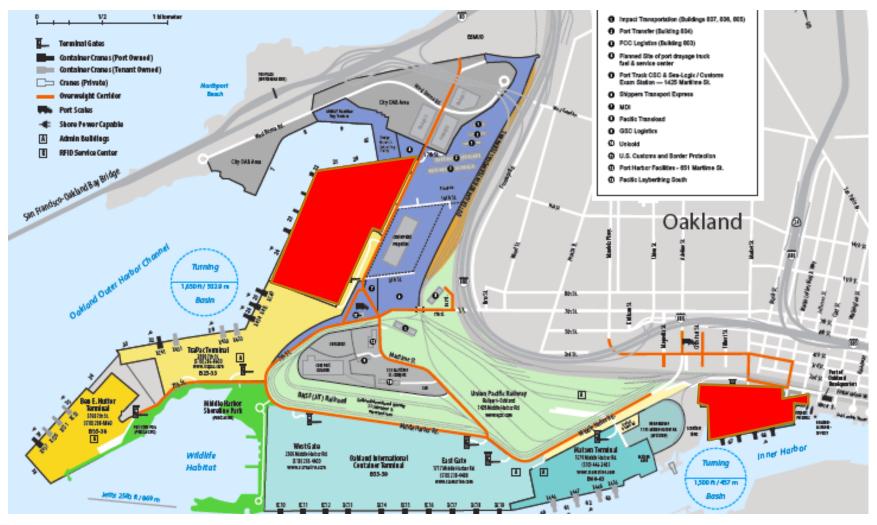

2017

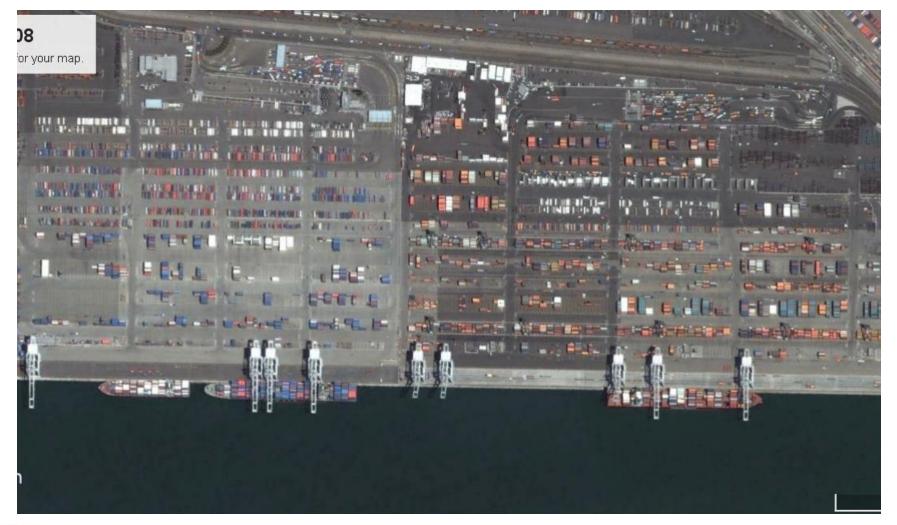

Marine Terminal Consolidation

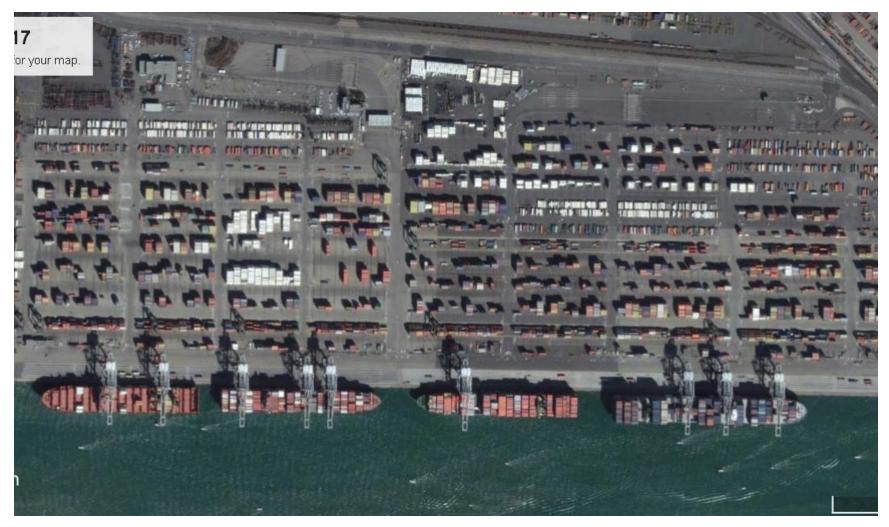

January 2008

October 2017 – Densified

Operational Impacts

Port Efficiency Task Force

- Port convened multi-stakeholder work group in 2015 to develop/implement operations and technology-based efficiency measures:
 - Extended Marine Terminal Truck Gate Hours
 - <u>Appointment Systems</u>
 - <u>Chassis</u>
 - Truck Wait/Turn Time Metrics
 - ILWU Workforce Growth
 - <u>Central Valley Depot</u>
 - Oakland Community Portal
 - Freight Intelligent Transportation Systems (FITS) Initiative

- All Port of Oakland marine terminals use various features of eModal for their customer interface.
- Current features include:
 - Terminal information
 - Appointments and Pre-Advise
 - Online fee collection from shippers/truckers
 - Container status and availability information
 - Vessel schedules
 - Drayage truck registry and RFID tag management
 - Mobile application
 - Trucker and shipper communications via broadcast message function

- Port working with Advent to create one system of record for the Port of Oakland:
 - Expand eModal utility for utilization by <u>ALL</u> supply chain stakeholders
 - Ensure data consistency, accuracy for OAK MTO's
 - Launch new Oakland-specific URL/website
 - Digitize and streamline landside operations
 - Transparency will drive ops efficiency and cargo velocity

- Phase 1 Q1 2018
 - Port level information, latest updates, maps
 - Marine terminal pages, with location, hours, maps
 - CCTV feeds from Port and terminals
 - Vessels in port by facility
 - Empty container return information by facility/line
 - No password required

###_TraPac

- Phase 2 Q3/4 2018
 - New Design Framework
 - Multi-platform w/ eModal user validation
 - Mobile friendly
 - Integrated container watchlist (now, for shippers too)
 - Dashboards
 - KPIs unique to shippers and truckers
 - Post login landing page

TraPac

- Phase 3 Q4 2018
 - Truck turn times
 - Integrate RFID tag reads collected by Port at entry/exit gates
 - Add new dashboard to showing average turn time by facility
 - 15 minute update interval

Freight Intelligent Transportation Systems (FITS) Initiative

- Make streets that support Port "smart"
- Collect, analyze, disseminate traffic information to increase efficiency
- Integrate local, regional, state traffic information
- Project Sponsor

Project Partners

FITS Project List

- Communications (Fiber)
- CCTV Upgrade to HD
- RFID Readers
- Joint TMS/EOC
- Changeable Message Sign Boards
- Truck Queue Detection
- Traffic Signal Upgrades
- Basic GoPort Web/Mobile Application

FITS Project List

- Communications (Wi-Fi)
- Supplemental Vehicle Detection (speed)
- C2C Communications
- Advanced Train Detection System
- Weigh-In-Motion Technology
- Basic Smart Parking

FITS Implementation

Current Schedule

- 35% Design Q2 2018
- 100% Design Q1/2 2019
- Start Construction Q4 2019

Current Finance Plan

- <u>Design</u>
 - Measure BB (County)
- <u>Construction</u>
 - Advanced Transportation & Congestion Management Technologies Deployment (Federal)
 - Port Security (Federal)
 - Trade Corridor Enhancement Program (State)
 - Measure BB (County)

Closing Thoughts

- No shortage of data in/around supply chain
- Stakeholders are demanding data transparency (access to advance, additional/organized information, KPIs, camera feeds, traffic information, etc.) to more effectively manage their business
- Data needs to be shared responsibly
- All stakeholders will need to participate !!!!!!
