DISTINGUISHED SERVICE
AWARD

FOUNDED IN 1911

An aerial night view of a large container port. A massive container ship is docked at a pier, its deck and the pier itself covered with stacks of colorful shipping containers. Several large red gantry cranes are positioned along the pier, some with their booms extended over the ship. The water is dark, reflecting the lights from the port and the ship. In the background, more stacks of containers and port infrastructure are visible under the night sky.
