A $46 billion investment gap by 2040 threatens U.S. seaports – critical economic lifelines that rely on connecting transportation infrastructure to deliver prosperity for millions of Americans. With America’s trade volume expected to quadruple after 2030, and port connections in poor condition, now is the time to invest in vital infrastructure. When it comes to American seaports, it helps to see the big picture.

A $4 trillion loss to U.S. GDP by 2040 is projected for failure to invest in America’s crumbling transportation infrastructure.

Urge Congress to support federal investment in seaports today.
