### Welcome

**William D. Friedman**  
President & CEO

The Port of Cleveland ended 2012 with cargo moves that clearly demonstrated the importance of our recently expanded on-dock rail system. During the final weeks of the year we moved about 15,000 tons of cargo on more than 160 rail cars - more than double the number of rail cars we saw in *all of 2011*. The cargo was destined for customers outside Ohio, who saw first hand that we can provide cost-effective and efficient connections to locations beyond our borders. This new rail capacity helped us increase international cargo by 5 percent in 2012, on top of a 12 percent increase in 2011.

### On the Docks

The *Federal Satsuki* docked at the Port of Cleveland in December, one of nine new ships that Fednav Limited of Montreal is building to serve the trade between the Great Lakes and Europe.

"I believe in Cleveland, I believe in the Midwest and I really believe in this system," said Fednav President and co-CEO Paul Pathy as he marked the *Satsuki's* maiden voyage to Cleveland and the United States during a shipboard ceremony. "These are just not words," he added, "because we are standing on a major investment that backs up what I am saying." Learn more about Fednav's impressive investment in the Seaway trade. And check out our video from the ceremony. [READ MORE](#)

### Along the Water

Hurricane Sandy devastated Cleveland's
