

Status & Update on Coastal and Marine Spatial Planning

Jennifer Lukens
National Oceanic & Atmospheric Administration
AAPA Harbors & Navigation Committee Meeting
July 25, 2011

Benefits of CMSP

- Reduce conflicts among uses
- Increase predictability and certainty
- Facilitate compatible uses
- Preserve critical ecosystem services

Regional Focus

CMSP: A Regional Planning Process

Framework: A Regional Planning Process

CMSP Process

CMS
Plan

Phase I (1-12mo)

- National CMSP Workshop
- Establish RPBs
- Regional CMSP Capacity Assessment
- Launch Data Portal
- Begin the Stakeholder Engagement Process

Phase II (9-24mo)

- Initial Regional Steps
- Building Capacity and Testing CMSP Process
- Work Plan Development and Submittal to the NOC
- Stakeholder Engagement

Phase III (18mo-5yrs)

- CMSP Formally Implemented
- CMS Plans Drafted
- Final CMS Plans Certified by NOC
- Stakeholder Engagement

Regional Planning Bodies (RPBs)

Timing

- Formed after the National CMSP Workshop (*conducted in June 2011*)

Membership

- Federal agencies, Federally-recognized Tribes and States

RPBs will determine :

- Ex-officio members from adjacent coastal states
- Inland State members
- Ex-officio members or observers from other Nations

The National Ocean Council will prepare guidance for RPBs on consultative requirements for:

- Local governments
- Non-Federally recognized tribes and indigenous community representatives
- Regional Fishery Management Councils, including whether to extend RPB membership

National Ocean Council's Governance Coordinating Committee

Governance Coordinating Committee State/Tribal/Local

State Regional Representatives

Brian Baird, Vice Chair

(West Coast)

Kathleen Leyden

(Northeast)

David Naftzger

(Great Lakes)

Lelei Peau

(Pacific Islands)

Mark Robbins

(Alaska)

Paige Rothenberger

(Caribbean)

George Stafford

(Mid-Atlantic)

Bill Walker

(Gulf of Mexico)

Dee Freeman

(South Atlantic)

*State Legislative
Representative*
Kevin Ranker

*Representatives from inland
States (2)*
(TBD)

Tribal Representatives
Steve Crawford
Jacque Hostler
Micah McCarty, Vice Chair

*Local Government
Representatives*
Kristin Jacobs, Chair
Geraldine Knatz
Joan Murphy

Public & Stakeholder Engagement

- ✓ Initial FR notice for public comments on Strategic Action Plans (*closed April 29th*)
- ✓ Strategic Action Plan Full Content Outlines Released & 12 Regional Listening Sessions Held (*June & July*)
- ✓ National Workshop (*June*)
 - Strategic Action Plan to include tools for effective engagement
 - Upcoming Regional Workshops are an opportunity to begin engagement at the regional level

CMSP Workshop – Key Issues Raised

- How best to represent existing local and regional entities on the RPBs – especially public input into the process
- Striking the right balance between the need for regional flexibility and value of national consistency
- Data: being ready to implement with known data gaps and knowing when “enough is enough” to effectively get started
- CMSP must build upon and not replace existing efforts

Presentations from the first day are available on-line at www.whitehouse.gov/oceans and the webcast can be found at www.livestream.com/interior

WELCOME TO OUR COMMUNITY!
We're here to provide you with the data and tools needed to support coastal and marine spatial planning. We want to work with you to build this community. We have some initial offerings from the Federal portfolio and plan to expand these offerings. These data and tools were selected to help begin the planning process. Join in our forum where you can tell us what else you would like to find. Come join us as we move forward with planning the future of our coastal and marine areas.

Federal Data Resources
We are in the process of making Federal data resources available for the coastal and marine spatial planning process. We are offering the ability to discover and access the data as well as tools to view and interpret the data. Come check out what we have so far...

Regional Planning Efforts and Resources
Coastal and marine spatial planning begins and ends in the regions. Many areas are already starting the planning process. Come see what everyone is doing and learn from these different efforts...

Forum: what else should we be doing?
We want to hear from you. What do you like about this site? What else should be here? Tell us what you think and help us build this community...

NOAA Regional CMSP Contacts

- Alaska and Arctic Region: Doug Demaster, Amy Holman
- Great Lakes Region: Jennifer Day
- Gulf of Mexico Region: Buck Sutter
- Northeast Region: Betsy Nicholson
- Pacific Islands Region: Michael Tosatto
- Mid-Atlantic Region: Thomas Bigford
- Southeast Region: Virginia Fay
- Caribbean Region: Billy Causey, Dana Wusinich-Mendez
- West Coast Region: John Stein

Measures of Success

- Regional Planning Bodies
- Accessible data for decision making
- Improved coordination among government agencies/regulatory efficiencies
- Regional marine plans
- Improved environmental conditions

The ocean, our coasts, and the Great Lakes provide jobs, food, energy resources, ecological services, recreation, and tourism opportunities, and play critical roles in our Nation's transportation, economy, and trade, as well as the global mobility of our Armed Forces and the maintenance of international peace and security.

Ocean Policy Task Force

On June 12, 2009, President Obama signed a memorandum establishing an Interagency Ocean Policy Task Force, led by the White House Council on Environmental Quality. On July 19, 2010 the Task Force released a set of final recommendations that set a new direction for improved stewardship of the ocean, our coasts, and the Great Lakes. The recommendations provide: (1) our Nation's first ever national ocean policy; (2) a strengthened governance structure to provide sustained, high-level, and coordinated attention to ocean, coastal, and Great Lakes issues; (3) a targeted implementation strategy that identifies and prioritizes the categories for action that the United States should pursue.
