

Building America's 21st Century Seaport Infrastructure

For job creation, economic growth and secure borders

\$66 BILLION INVESTMENT NEEDED FOR INFRASTRUCTURE

What's at risk without adequate investment in U.S. seaport infrastructure?

\$4 trillion
potential GDP loss by 2025

\$575 billion
cost to American businesses and households by 2025

\$14 billion
added cost of traded products due to shallow harbors by 2040

\$3,400
loss per household by 2025

Growing trade in America requires investment in our nation's infrastructure to meet the demand for safe, efficient movement of freight. These investments create jobs and economic growth. Ports have identified \$66 billion necessary for port-related infrastructure over the next 10 years. It's time to invest to Keep America Moving.

See inside map for illustrative examples of the types of port-related landside and waterside projects ports have identified.
