Office of Port and Facility Compliance (CG-FAC)
U.S. Coast Guard Headquarters

Captain Andrew Tucci
Facility Security and the MTSA

- Begins with a Facility Security Assessment and an FSP
- FSO and Security Organization
- Security Procedures for:
  - Access Control
  - Communications
  - Handling Cargo
  - Vessels stores/bunkers
  - Training and Exercises
  - MARSEC Levels
  - Special CDC requirements

The FSO has a BIG job!
• Influences
  • 361 ports
  • Over 3,200 facilities
  • Over 14,000 vessels

• Over 2 million TWICs

• TWIC verification by your security staff is the foundation of your access control system

• Use the security features of the TWIC

• Beware of counterfeit TWICs!

Access control remains the most frequent violation
Status of TWIC Reader Rulemaking

- NPRM Published March 22, 2013
  - Comment period closed on June 20, 2013
  - Approximately 100 comments received in writing
  - Approximately 50 comments received at public meetings

- Currently reviewing all comments to determine any necessary changes for the Final Rule

- TWIC is the foundation of your access control program
Regulation Update

• Rulemaking Projects:
  – TWIC Reader Requirements
  – Seafarer Access (CGAA Section 811)
    • NPRM Under development
  – Integration of Facility Security Plans and Systems (CGAA Section 822)
    • Reviewing comments to determine best course of action
  – Facility Security Officer Training and Certification (CGAA Section 821)
Hurricane Sandy
SIGNIFICANT WIND IMPACT
58 mph +

THREAT POTENTIAL
HIGHEST
MEDIUM
LOWEST
Wide Spread Salt Water Impacts on Electronics, Security Systems, and Control Systems

Build Resilience into your FSP and business.

Facility Owner/operator may submit a proposed amendment at any time.

ZERO delays due to MTSA requirements after Sandy

- ~70'
Area Maritime Security Committees (AMSC)

• Established by each COTP to assist in the development, review, and update of the Area Maritime Security (AMS) plan

– Volunteer port stakeholders consist of Federal, State, Local & Industry organizations

– 43 AMSCs exist; collaborative efforts between port stakeholders thwart potential terrorist threats against critical infrastructure components of each port/waterway

• Please support your AMSC and LEPC!
